

INTEGRATED MANAGEMENT POLICY

FLORPINUS INDÚSTRIA QUÍMICA, which operates in the market to produce turpentine, gum rosin, rosin-derivatives, and the processing of gum resin, is aware of its commitment to its stakeholders and has an Integrated Management System (Quality and Environment), which commits it to:

Meet the customer's expectations and needs by delivering quality products.

Promote the protection and preservation of the environment as well as the prevention of pollution, through controls and optimization of production processes, identifying the aspects and controlling impacts generated, complying with all relevant legislation and other applicable environmental requirements, raising awareness among employees and partners to improve their practices related to the environment and sustainability.

Maintaining good communication with the various stakeholders, always seeking partners with similar values of Florpinus.

Provide safe and healthy working conditions, aiming for the prevention of accidents and labor illnesses.

Promote awareness and constant training of employees, to improve the performance of their activities.

Continuously improve the performance and effectiveness of the management system implemented.
